Our Legacy and the Success

In 1992, PRD Rigs manufactured its first Hydraulic Rig. This was just the beginning of a long-lasting success story in the drilling rigs manufacturing industry. Innovation and strategy are our mantras. We strive to constantly learn, evolve and re-invent quality drilling rigs. We have substantially catered to the domestic market by providing nearly 2000 rig units since inception. Our commitment towards quality drilling rigs kept the ball moving further down the field and we penetrated the global arena in 1999. Consistent quality has been the key in sustaining our global presence. As a testimony to excellence, we are the first drilling rig manufacturing company with an ISO certification (9001:2015).

Diverse product range is another accomplishment of PRD Rigs. Drilling equipment for water wells, mining, exploration, construction and special purpose rigs form the PRD Rigs spectrum. Our R & D team keeps the innovation wheel rolling to provide economical but robust drilling rigs. Also, we recognize the need for providing adaptable solutions that suit specific regional needs. Therefore, we tailor-make drilling rigs to have every need covered.
